Re: Power 10 CMMS

I would like to express my appreciation for **Power 10** - computerized maintenance management system.

Weizmann Institute of Science purchased **Power 10** system 12 years ago.

We are highly satisfied with the system's capabilities. The system enables us to manage the institute's maintenance efficiently in the following aspects: Managing corrective work orders as well as preventive maintenance.

Managing equipments and spare parts warehouse.

Managing meters readings.

Producing different varieties of reports for analyzing the maintenance management in our institute and much more.

Very truly yours,
Eng. Hanoach Shmit
